### Description

#### TNT 8.5x24 XPRS10K DLX.

[TNT](#) makes nice, enclosed trailers and with the car hauler package added you get some nice standard features. As a result, you have 20FT of level deck with an additional 4FT of dove tail, totaling 24FT. The height is 7FT 5 inches so plenty of head room after you're loaded with a vehicle. In addition, the car carrier package includes drop axles lowering the height of the trailer, all for easier loading of low vehicles. And with torsion suspension your cargo rides in comfort.

The rear opening is 92"x72" and the side door is oversize at 48" with a bar lock for added security. The spare tire and wheel are mounted high on the wall, so it certainly does not consume floor space. Backing ability comes with the V-nose, as a result makes it easier to back in tight areas. You will truly love that feature if you're hauling this behind a van or motorhome. And they didn't forget about looks, this one has bonded sides and plenty of brightwork. There are even more features to see on this TNT 8.5x24 XPRS10K DLX so come see it for yourself!
