## Description

**This Wells Cargo 32FT MotorTrac is incredible!**  
Setup on Wells Cargo's new MotorTrac platform makes it the best looking and outfitted enclosed trailer we've seen! This [Wells Cargo](#) 32FT MotorTrac has a 32FT long box, 8.5FT wide and 7FT 4 inches high, it's roomy. The rear opening is 96 inches wide, and the side door opening is large with 60x78 inch premium double side doors. Three 5K pound axles, brakes on all 6 wheels and a 5FT three bar A-frame tongue means this beauty will stop, pull and back with ease. Because the gloss black aluminum exterior bonded walls and black Spitfire aluminum wheels were added, it makes the exterior

look sharp!

**Interior Features:**

With black aluminum insulated interior side walls and ceiling you will be comfortable while looking good. Aside from looks, the 3FT charcoal grey wall guard keeps scuff marks off the wall. Floor covering is black coin rubber with below floor spare tire storage with matching spare tire & wheel. Storage consists of a closet and upper and lower cabinet with a black textured countertop for your bench work area. Interior lighting consists of white LED lighting, blue LED accent lights and a light over the work bench. Loading low vehicles into this trailer is made easier with a longer rear ramp with a 3FT aluminum extension. Nighttime loading is no problem with a 12-inch steel rear spoiler that includes 4 slim line LED load lights.

**Exterior Features:**

The 21FT onyx awning protects you from the sun and the black metal shield protects the awning when stored (not available on the unit we have in stock right now). When working outside, two large exterior LED 5K Lumen scene lights illuminate the passenger side work area. The blue-tooth stereo, subwoofer and speakers are located on the inside and outside of the trailer. Because backing at night can be tough this trailer has LED side surface mounted back-up lights. Once in its spot disconnecting is made easy with its electric tongue jack. There's plenty of power with a 50-amp AC/DC electrical panel with a DC converter and electrical receptacles are located inside and out. This trailer is a must see!
