Description

TNT 7x14 SidebySide PKG

[TNT](#) makes a great quality trailer, well-built and durable with some nice standard features. They started with snowmobile trailers and branched out into all size and optioned trailers. Consequently, this TNT 7x14 SidebySide PKG has a left-hand side door to use when entering and exiting your side by side. Secondly, it has floor and sidewall tie downs for your side by side and off-road equipment. Tandem 3500LB axles with brakes on all wheels gives you the capacity and braking needed. Above all it has extras that many trailers don't come with, like heavy duty bar locks on even the side door. It has LED lights and an interior dome light as well.

Finally, they didn't forget about making this trailer look good. This trailer comes in several different color combinations. The blackout package, which blacks out all the exterior walls, diamond plate and wheels, as well as black and grey exterior color combinations. All the different combos (comes in all white as well) really make this trailer standout! Come see this trailer for yourself, you won't be disappointed!
