Description

**Maverick 2-Horse 13'**  
[Maverick Horse Trailers](#) are made by C&B Quality Trailer Works. They are quality built for a reasonable price and that quality is immediately noticeable. As a result, durability is present in the most important areas, the horse stall walls and header. Weight savings can be found in the walls, roof, fenders, nose and stall dividers which are aluminum. This Maverick 2-Horse 13' is even more durable in the suspension with tandem 3500LB axles and electric brakes on all four wheels. In addition, stall area options exist like rubber floor and an EZ Latch aluminum stall divider. Further options outside are tie rings and bar locks on all doors. The tack room has a saddle rack, bridle and rein hooks. Consequently, this is a really great trailer with many features for the price.

*Trailers may be shown with optional or discontinued equipment. Features, options, and packages are subject to change without notice.*
