Description

Horizon 7x12 Dump 2FT

To purchase the best dump trailer from a leader in the industry you're going to have to spend serious money. However, [Horizon Trailers](#) although a newer manufacturer, set out to build the highest quality trailers right from the start so you can save money. They started with 7 gauge and 10-gauge steel and welding on top and bottom of their dump boxes. Quality continues with large frame rails and supports and other top-quality products. Another feature is the scissor lift system they use for the dump beds. Consequently, it provides more than ample lifting power and longevity. Because they are well made, they will last many years and not fail as easy as other manufactured dumps.

This Horizon 7x12 Dump 2FT has tandem 7K pound axles (14/9.9K) with brakes on all wheels providing the capacity and stopping power necessary. Abundant features include ramps with tie downs in the dump bed to load your Bobcat or excavator. They even all come standard with spreader gates! Even more features include a battery, remote control and slow charger to keep your battery charged. As a result, this dump is made to do it all. And finally, they didn't forget about appearance, they powder coat their trailers providing the ultimate in durability and looks. Come see for yourself, you will be extremely impressed!
